

COMPANY RULES AND REGULATIONS

Very high on the Company's list of priorities is to provide a working environment for employees that is well organised, pleasant and rewarding.

We will try to achieve this objective by:

- Endeavouring to recognise and meet, where possible, the employment needs of people in the company.
- Promoting organised procedures in which methods and rules are made known to all staff.
- Detailing what is acceptable and unacceptable in the workplace.

This document is to help implement these aims. It is designed to serve as a general guide and cannot detail all operating procedures of the company. In addition, procedures and conditions may change from time to time, and every effort will be made to keep staff informed of current procedures.

1.0 AFTER HOURS CALLS

In providing essential service support to businesses, it is in the nature of our industry that callouts, and sometimes after hours work are conditions of employment requiring our mutual co-operation. When after hour calls require an employee to work between the finish of work on one day and the start of work the following day, he or she is entitled to delay normal starting, if needed, the following morning by the time necessary to ensure an eight hour break has occurred between the finish of work and the start of work of the respective days. If the after hours call is between midnight and 6.00 am he or she can delay starting the following morning by the equivalent time to that spent in travel and on the job the previous night. Normal rates shall be paid for the delay time in addition to the callout payment.

If the employee is required to start at 7.30 am and has not had an eight hour break since the last working day the period between 7.30 am and the time at which the employee would have started after the 8 hour break shall be paid at overtime.

All changes in address or telephone number must be immediately reported to the Human Resources Manager for updating personnel and callout files.

2.0 TIMESHEETS

The time sheet (either paper or electronic) is the only official document used for recording service time and calculation of wages.

Daily Timesheets are to be completed at the time work is completed and handed to the applicable manager by 8.30 am the following day.

Weekly Timesheets. Each days hours are to be completed daily and the completed weekly timesheet handed to the applicable manager by 8.30 am the following Monday.

All hard copy timesheets must be clearly written and easily readable, totalled and signed by each employee.

3.0 LEAVE ENTITLEMENT

Holiday entitlement is as per the employment agreement. These holidays are taken in accordance with the Holidays Act and at a time mutually agreed. All leave is preferably to be taken in the year it is due. Employees schedule their annual leave arrangements after consultation with their manager. Every effort is made to ensure generally, that staff are able to take holidays at dates of their preference within the above requirements.

4.0 NOTIFICATION OF ABSENCE FROM WORK

If you require release from work during the day for unavoidable reasons such as professional appointments, this should be arranged in consultation with your supervisor. Paid time off will be granted at the discretion of the company and subject to circumstances.

If you are unavoidably detained from work you should inform your supervisor as soon as possible, stating the anticipated length of your absence. Continued absence without notification for a period exceed two days can be grounds for termination of employment.

5.0 GRIEVANCE PROCEDURE

The procedure for resolving personal grievances is contained in the Employment Agreement.

6.0 SAFETY

We recognise the necessity to promote safe working conditions and work habits of all employees. This requires the full co-operation of everyone. It is your responsibility to report any unsafe conditions to your supervisor immediately they are noticed. Below are some of the general rules that will apply for the best interest of everyone's safety.

1. Always look out for hazards and remember to remove them, guard against them and warn others about them.
2. Smoking, including the use of electronic cigarettes, is not permitted in any company workplace in accordance with the Smoke-free Environments Act 2003. Refer 25 below.
3. Know where the fire extinguishers are in our company and how to use them if necessary.
4. Pay attention to safety notices and exit routes from our company and customers' premises.
5. Protective clothing or equipment provided, must be worn where necessary. Please refer to uniform policy.
6. Persons entrusted with on-job supervision of young people have particular responsibility for training in safe working habits.
7. All employees shall be aware of the contents of the Company Health and Safety Manual.
8. All employees shall comply with the safety requirements on customer's sites/premises and may be required to undergo drug and alcohol testing as per those requirements.

7.0 COMPANY/CUSTOMER RELATIONSHIPS

As in all service industries, the development of good relationships with our clients at all levels of contact is a critical factor in the successful operation of our business.

Where possible and practical, good relationships are fostered by assigning to our trade and technical staff the work of specific clients; and the proof that our staff have responded well to such responsibility is evident in the retention of customers and growth and stability of our operation.

In this regard and being our on-site representative you will see from time to time various problems in our procedures which may have a detrimental affect on our quality of service. On these occasions your help will be greatly valued in passing onto your supervisor or manager, information about these problems so that they can be dealt with and the level of service improved.

8.0 PERSONAL PROPERTY

No responsibility will be assumed by the company for the loss or damage to personal property, valuables, etc, brought onto company or job site premises, unless they are work related items stored and locked in approved areas.

9.0 SERVICE EQUIPMENT ON ISSUE FROM THE COMPANY

Service equipment and plant required to be carried in service vans or issued from store is a personal loan issue which is the individual's responsibility and must be accounted for at periodic inventory checks. Cost for plant not accounted for due to employee's negligence will be processed according to the Employment Agreement.

10.0 WORK INJURIES and DAMAGE TO COMPANY PROPERTY

All work injuries, and/or damage to company property must be reported to the supervisor or manager immediately, and an incident report form must be completed immediately and sent to Head Office Reception. A First-Aid cabinet is kept in the Branch Reception Offices and is for minor injuries only. All other injuries should be handled by competent medical people such as the local Industrial Health Nurse or a medical practitioner. Supervisors/Managers must accompany injured personnel to the doctor or hospital if medical attention is required. Medical certificates must be handed to your supervisor on return to work when a medical clearance from the hospital or doctor is necessary.

11.0 CLOTHING

At all times a reasonable standard of dress is required. Suitable clothing will add to the respect you have already earned from the client for your technical competence. Where the employer provides for you a uniform, it is expected that the uniform be maintained in good condition and worn well. A smart and tidy appearance is expected at all times. Please refer to uniform policy.

12.0 COMPANY VEHICLES

Refer to separate company vehicle policy.

13.0 GOOD HOUSEKEEPING

Good housekeeping and good work go hand in hand, tidiness and cleanliness in the work place reduces accidents and safeguards health. We encourage all staff to maintain high standards of housekeeping.

14.0 WASTE AND SCRAP

Separate scrap from reclaimable waste. Know the location of and use designated waste and scrap receptacles in your workshop.

Please take note: Any copper wire drawn from vehicle stock or the company's store that is surplus to any job is property of the company and must be recovered and returned. Any waste or scrap copper wire, and indeed any material or goods whatsoever, drawn out of a customer's job is the property of that customer and is only to be removed from his/her premises by company staff at the customer's specific request.

Important: It is an important part of any "Service" or "Installation" job to leave the client's premises neat and tidy.

15.0 PRIVATE TELEPHONE CALLS

Although receiving very occasional private calls within work time is agreed to, you are expected to make only urgent or necessary calls during tea or lunch breaks. The company reserves the right to charge the employee for excessive private use costs.

16.0 TERMINATIONS

Conditions relating to termination of employment are covered in the employment agreement. This does not prevent the company from summarily dismissing a worker for wilful misconduct. The management at all times has the right to summarily discharge any employee for proper cause. Proper cause includes, but is not limited to, the following Company House Rules, which are intended as a guide to existing and new employees.

- a.) Absence from work for two consecutive days without reasonable cause and without notification to the employer.
- b.) Neglect of duty of a recurring or serious nature.
- c.) Continued failure to perform duties in a satisfactory and proper manner.
- d.) Unauthorised possession and/or movement of company, client, or other workers property. This includes scrap, waste or damaged items.
- e.) Falsification or being party to falsification of any company or client document or record. This includes time/wage/accident/expense/leave records etc.
- f.) Failure to follow cash/till handling procedures, and/or negligence or carelessness when handling cash/cheques etc.
- g.) Unauthorised use of company/client equipment or vehicles.
- h.) Irresponsible use of fire protection or safety equipment.

- i.) Wilful, deliberate or negligent acts which may cause injury or damage or adversely effects quality or productivity.
- j.) Wilful damage to property/equipment/product.
- k.) Refusal to obey a lawful and reasonable instruction; this includes refusal to work overtime as required, and refusal to perform assigned work.
- l.) Failure to follow safety requirements. This includes failure to use or wear safety equipment and, or protective clothing etc.
- m.) Sexual harassment of another employee, customer or client.
- n.) Intimidation of another employee, customer or client.
- o.) Fighting and/or verbal abuse of another employee, customer, or client on company premises or when attending company functions.
- p.) Consuming alcohol on company or client property or during working hours without management's consent.
- q.) Driving company vehicles while under the influence of alcohol as defined by New Zealand traffic regulations.
- r.) Possession of illicit drugs or being under the influence of drugs during working hours or while travelling to or from work in company vehicles.

17.0 UNAUTHORISED POSSESSION OF COMPANY, CLIENT, OR OTHER EMPLOYEES PROPERTY

Employees are advised that staff found taking goods belonging to the company, fellow staff members or clients without prior arrangement for payment will be summarily dismissed, with likelihood of prosecution to follow. This policy has always been stated to all staff so that the stand this company takes on the matter is clear: theft, whether petty or major, is not tolerated.

Staff are placed in a position of absolute trust regarding handling of goods and the company is grateful to all reliable staff who have justified this trust.

18.0 COMPANY AND CLIENTS PROPERTY

All employees are reminded that any unauthorised removal, possession, or interference with company or client's property either temporarily or permanently is not permitted, and could carry the penalty of prosecution and summary dismissal.

19.0 COMPANY CODE OF STAFF BEHAVIOUR

The following items may be found to be less serious misconduct, and management will take the appropriate action in all cases to maintain discipline:

- a.) Wilful failure to follow specifications as laid out by management.
- b.) Wilful failure to follow the instructions of the supervisor or other person directed by management to take charge in the absence of the supervisor.
- c.) Wilful misuse of tools or equipment belonging to the company.
- d.) Reporting to work in a state of intoxication.
- e.) Leaving the assigned place of work during working hours without informing the supervisor.
- f.) Unruly behaviour.
- g.) Posting an offensive notice on the noticeboard or anywhere else on the premises (all notices to be approved by management).
- h.) Failure to observe safety rules.
- i.) Failure to report any accident requiring medical treatment.
- j.) Failure to perform work to the required standard.
- k.) Failure to follow established organisation TQM procedures.
- l.) Unauthorised absence.
- m.) Boisterous, disruptive or irresponsible behaviour.
- n.) Failure to report any accident or personal injury occurring at work, no matter how minor the incident.
- o.) Poor time keeping, including arriving late for work or from lunch and tea breaks.
- p.) Careless or indifferent performance of duties.
- q.) Being discourteous to other employees or clients.
- r.) Aggressive or argumentative behaviour.
- s.) Using abusive language which may cause offence to another person, while at the place of work.
- t.) Leaving the assigned place of work without permission

u.) Failing to apply the rules of Social Media as per the Company Use Policy.

20.0 EMPLOYEE'S TOOLS - Example only for Electricians

The following minimum list of tools shall be provided by each electrician:

- Allen Head Keys Set – Metric 10 piece
- Battery Drill
- Carpenter's Hammer
- Centre Punch
- Cold Chisel
- Crimp Tool up to 16 mm
- Engineers Square
- Files
- Hacksaw – Large
- Hacksaw – Junior
- Isolation Kit (i.e., a padlock, and a couple of the more common type MCB lockout units, and a tag).
- Keyhole Saw
- Level – small
- Metric Open Ring Spanner Set – 6-22mm 8 piece
- Philips Screwdriver Med and Small
- Pliers 200 mm combination
- Pliers Long Nose
- Pliers Side Cutter
- Pocket Knife
- Pop Rivet Gun
- Screwdriver Set
- Screwdriver –Terminal
- Shifting Spanners Set 100/150/200/250/300mm
- Socket set – metric 35 piece
- Tape 6m
- Tin Snips 250 mm
- Tool Belt
- Torch
- Tyre Pressure Gauge
- Wire Strippers
- Wood Chisels Set
- AS/NZS 3000 – latest version
- Electricity Regulations – latest version
- Digital Multimeter
- Insulation Resistance Tester 500/1000V
- Voltage Tester 400V Martindale/equivalent

Example only for Line Mechanics

The following minimum list of tools shall be provided by each Line Mechanic:

- Allen head Keys Set - Metric 10 piece
- Carpenter's Hammer
- Cold Chisel
- Crimp Tool up to 16mm
- Files
- Hacksaw - Large
- Hacksaw - Junior
- Isolation Padlock
- Keyhole Saw
- Level - small
- Metric open ring spanner set - 6-22mm 8 piece
- Insulated Philips Screwdriver Medium and small
- Insulated Pliers 200mm
- Insulated Pliers long nose
- Insulated side cutters

Insulation Tester
Pocket Knife
Screwdriver set
Shifting spanner set - insulated
Socket set - metric 35 piece
Tape 6m
Tool Belt
Torch
Wire Strippers
Wood Chisel set
Digital Multimeter
Voltage Tester - (Duspol Tester)

Note: The company administers an employees group tool insurance policy which is paid for by the employees. It is the responsibility of the employee to advise payroll if they wish to be included in the scheme.

21.0 CONFIDENTIALITY

All information concerning the employer or customers affairs gained by the employee during the course of their employment shall be confidential and not passed onto any third party.

22.0 WORKING ON OWN ACCOUNT

The employee shall not engage in any electrical or service work on his/her own account except as set out below:

- a.) For members of employees immediate family. Immediate family is defined as the employee's spouse, parent, parent-in-law, child, brother, sister, grandparent or grandchild.
- b.) And when specifically authorised by the CEO, COO, or Manager Human Resources when the work has a commercial value of more than \$500 including GST.

23.0 QUALITY ASSURANCE

The company operates a QA system in accordance with the requirements of IS9001 and the company prides itself on the quality of the work it carries out. Implicit in this is the requirement for a high standard of workmanship from our employees and the necessity for all relevant inspection, testing and certification to be carried out. It is also the responsibility of every employee to ensure they are familiar with the relevant customer requirements and are carrying out the work in accordance with those requirements.

24.0 DRUGS AND ALCOHOL

All employees shall adhere to the following standards of behaviour.

- a) Employees should be fit and ready to carry out their duties at all times.
- b) Consumption of alcohol during working hours is not permitted under any circumstances unless prior approval is obtained from the CEO.
- c) Employees under the influence of alcohol shall not be permitted to commence or continue work at the workplace.
- d) Deliberate misuse of illegal drugs is prohibited as is the possession, use, sale, or distribution of illegal drugs.
- e) Employees shall not be under the influence of illegal drugs during working hours or while travelling to or from work in company vehicles.
- f) Employees shall advise their supervisor if they are taking prescribed drugs so that appropriate occupational health and safety advice can be provided or any appropriate work related precautions taken. Staff who are prescribed medication are expected to ask their doctor if the medication will have any potential negative effect on job performance. They are required to report to their team leader if there is any potential risk, limitation or restriction for whatever reason that may require modification of duties or temporary reassignment, and provide appropriate medical verification on any restrictions in performance of their duties.

All employees shall comply with clients' policies and procedures with regard to individual client sites.

25.0 SMOKING POLICY

There is to be **no smoking (including electronic cigarettes)** in any McKay facility including:

- Garages, sheds, containers, offices and or McKay controlled work sites.
- In any McKay company vehicles, at any time. All McKay vehicles are to be **100% smoke free**.
- There is to be no smoking during working hours, you may smoke during break times but only in allowed areas or public spaces for McKay please see site rules below.
- You can only smoke in client designated areas if on a client site or at McKay designated smoking areas within those. If a client has a smoke free site or policy then you cannot under any circumstances smoke on or in their premises or in vehicles.

Location Specific Rules

- Water Street, Whangarei – There is to be no smoking on McKay premises at McKay including within the carpark area, white shed.
- NZ Devonport – only smoke in designated areas
- NZ Refinery – only smoke in designated areas
- Hamilton – No smoking in the McKay leased premise including yard
- Kawerau - No smoking in the McKay leased premise including yard
- Warkworth – No smoking on McKay leased premises
- Dargaville and Kaikohe – No smoking in satellite depot premises

Help going Smoke free

If you are smoker and are looking to quit then McKay can help. Please feel free to have confidential discussion with Elizabeth Galbraith our HR Manager on the things we can offer. It our desire to have healthy engaged staff.

Feel free to also access the NZ government assistance programs on Quit Line 0800778778.

Any breach of this instruction will be considered to be misconduct in accordance with McKay HR procedures,

26.0 WORKPLACE HEALTH MONITORING

Where contractual works are being performed in workplaces that are subject to known hazards, or in cases where management is advised that specific hazards are present, there may need to be specialised Health Monitoring Programmes set up. Where such cases occur, management will inform all employees, prior to their commencement of work in that workplace, or as the case may be, as soon as practicable.

27.0 EXTENDED WORK HOURS

At times there are valid reasons to work extended hours or on sequential days beyond normal work patterns. However it is vital that the safety of individuals and equipment is assured. Employees shall inform their supervision of any impediment which may impact on their ability to do their job safely such as fatigue due to tiredness, impaired health, and stress related issues.

Supervisors are responsible for assessing the welfare and safety of extended work hours, which should take the above health and safety issues into account. They are also to consider the potential hazard fatigued employees might expose either to themselves or other employees or to equipment. The maximum work hours shall be as follows however owing to individual circumstances it may be necessary to reduce the working hour limits further.

- a.) For projects four weeks and under in length, twelve hour days may be worked with a maximum consecutive number of days worked of thirteen before a day off.
- b.) For projects over four weeks in length the normal hours of work may be up to sixty hours per week, with at least one day off per week. For critical progress reasons this can be increased to eighty four hours per week for a maximum of two weeks, however no more than thirteen consecutive days.

The pay staff have been instructed not to pay for hours beyond the above restrictions.

28.0 ACCOUNTS PROCEDURES

If the employee is engaging services from McKay, or purchasing equipment, for their own private use, the employee shall remain completely independent from the jobbing and accounting processes. This means they must not log their own job onto the accounting system, create purchase orders or credit notes for the job, post stock to the job, or create their own invoice when the job is completed. All spare parts are to be ordered over the spare parts counter.

29.0 ENTERING CUSTOMERS UNATTENDED PREMISES

The employee must not enter any unattended premises without the owner's express permission (for example when attending to Service Jobs). Contact should first be made with the property owner and their permission sought. There are many issues that may arise if you do not have permission to enter the premises including prosecution for trespassing.

I have read and understood these company rules.
