EDUCATION

Lakshmi Narain College Of Technology, Bhopal(MP)

Bachelor of Technology - Computer Science

CGPA: 8.38

2024 - 2028

Ramkrishna vidya Mandir H S School, AshokNagar(MP)

Board Of Secondary Education Madhya Pradesh- 12th

Percentage: 80.0

2022 - 2024

SKILLS SUMMARY

Programming Languages: C++, HTML, CSS, JavaScript, Java

Frameworks: React, Next.js, Node.js, Express.js

System Design & Architecture: Microservices, RESTful APIs, Event-Driven Architecture, Git

DevOps & Cloud Technologies: Docker, AWS

Databases & Caching: MySQL, MongoDB, Firebase

Virtualization & Linux: Red Hat Linux, Container Orchestration

EXPERIENCE

Full Stack Intern — Sheryians Coding School

Dec 2025 – Feb 2026

full Stack Intern

- Designed a scalable backend architecture using Node.js and Express.js, improving code maintainability and application scalability.
- Built secure RESTful APIs with JWT authentication, request validation, RBAC, and rate limiting.
- Developed a MERN-based admin dashboard for 500+ applicants, reducing administrative effort by 40%.
- Implemented Redis caching, AWS S3 pre-signed URLs, and SSR/SSG, reducing API response time from 3s to 100ms while improving performance and SEO.

PROJECTS

InterVu.ai — AI Interviewer & ATS Optimization Platform 

React.js, Node.js, Express.js, MongoDB, GenAI, MERN Stack

- Developed an end-to-end AI-powered interview and ATS optimization platform that analyzes resumes against job descriptions and generates detailed gap-analysis reports.
- Integrated Large Language Models (LLMs) with LangChain to build AI-powered interview feedback, resume scoring, and personalized improvement recommendation workflows.
- Implemented secure PDF resume parsing, document management, and scalable backend workflows using Node.js, Express.js, MongoDB, and RESTful APIs.

Taste Track — Food Discovery Platform 

React.js, Node.js, Express.js, MongoDB, MERN Stack

- Engineered a full-stack food discovery platform featuring swipeable short-form media, personalized recommendations, vendor profiles, and social engagement capabilities.
- Developed scalable RESTful APIs for user authentication, vendor management, content delivery, and real-time interactions using Node.js, Express.js, and MongoDB.
- Designed optimized MongoDB schemas for media metadata, user activity, and vendor information, improving application scalability, query performance, and maintainability.

KhataWeb — B2B Dynamic Pricing Platform 

React.js, Tailwind CSS, Axios, REST APIs

- Developed the React.js frontend for a B2B pricing platform with customer-specific pricing, billing, inventory, and quotation management.
- Integrated RESTful APIs using Axios and built responsive dashboards for sales analytics, pricing insights, and customer management.

ACHIEVEMENT & LEARNING

Problem Solving: 300+ problems solved across LeetCode and GeeksforGeeks

Hackathons: Secured 1st Place (Grand Champion) at the International Wave Hackathon 2026 and qualified for Round 2 of the Economic Times (ET) AI Hackathon 2026 with AI-powered solutions.
